GRIC: FÍSICO, VIRTUAL Y EXPERIMENTAL

Es un espacio creativo que fomenta la colaboración e innovación, donde los estudiantes graduados y la facultad del RUM pueden reunirse para desarrollar proyectos y recibir apoyo en servicios especializados en el proceso investigativo, comunicación académica, metodología de investigación y gerencia de datos, entre otros.

This material is based upon work supported by the Department of Education, Title V Part B, Promoting Postbaccalaureate Opportunities for Hispanic Americans Program (PPOHA) under Award # P031M140035, by the National Science Foundation (NSF) under Grants HRD 0833112 & 1345156, and by the UPRM General Library.

Tiempo

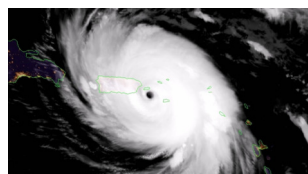

EN SUS PALABRAS

Fue mi salvavidas. No tenía sitio para estudiar no Facildades. Abrir 24 horas fue una excelente oportunidad. No hay sitios adecuados para estudiar en ningún sitio en Mayagüez. Si no hubiese sido por gric no hubiese podido culminar con éxito (soy estudiante phd)

Thank you for giving us such excellent service here at the GRIC (Graduate students of the Department of Kinesiology)

SERVICIO 24HRS DESPUÉS DE MARÍA

- I have to admit that thanks to the opening of the GRIC and because it was 24hrs I could finish my semester. I didn't have power in my apartment , and it wasn't safe to arrive there late. So, I stayed at the GRIC almost every night still morning studying, doing thesis work, grading papers, preparing the classes I gave . Simply trying to catch up with my classes and work. I got power late in January.
- For our graduate students it was key to enabling them to keep making routine progress on course work and theses requiring research, online work, and a space in which to comfortably and safely work during atypical hours and an unprecedented social and humanitarian crisis.
